

## UPCOMING EVENTS

### FUNDAMENTALS OF RESTORATIVE IMPLANT DENTISTRY FOR THE GENERAL DENTIST

Friday, March 7, 2008

### ESTHETIC FULL-MOUTH IMPLANT RECONSTRUCTION

Module I: Saturday, March 8, 2008

Module II: Friday, March 14, 2008

Module III: Saturday, March 15, 2008

### IMPLANT THERAPY IN THE ESTHETIC ZONE (COURSE C)

Friday - Sunday, March 14 - 16, 2008

### BEIJING TRAVEL & LEARN PROGRAM: *EXCELLENCE IN ESTHETIC IMPLANT DENTISTRY FOR THE EDENTULOUS PATIENT*

Sunday - Friday, March 16 - 21, 2008

### OBSTRUCTIVE SLEEP APNEA, SNORING AND DENTAL ADVANCEMENT

Friday - Saturday, March 28 - 29, 2008

### ESTHETIC BONE GRAFTING FOR IMPLANT SITE DEVELOPMENT

Module I (Hands-On): Saturday, March 29, 2008

Module II (Cadaver Workshop): Sunday, March 30, 2008

### NEW ODONTIC SEMINAR: *ADVANCED PROSTHODONTIC DIAGNOSIS AND TREATMENT PLANNING - A LOOK OF WHAT, WHEN, WHERE, AND WHY*

Friday, April 4, 2008

### INTERDISCIPLINARY CLINICAL APPROACHES TO ACHIEVE DENTAL ESTHETICS

Friday, April 4, 2008

### COMMON ORAL LESIONS (1): *UPDATE ON EARLY ORAL CANCER AND PRECANCER DETECTION*

Saturday, April 5, 2008

### USC - DELASALLE BINATIONAL DENTAL SYMPOSIUM

Friday, April 4 -5, 2008

USC School of Dentistry is an ADA CERP and AGD recognized provider

## Advanced Periodontal Instrumentation: Current Concepts and Controversies 2008

USC School of Dentistry  
Saturday - Sunday, May 31 - June 1, 2008  
9:00 a.m. - 5:00 p.m.

## SPEAKER

### Anna Pattison, RDH, MS

Mrs. Pattison received her BS degree in Dental Hygiene from the University of Southern California (USC) and her MS in Dental Hygiene from Columbia University. She has been an

Associate Professor at USC School of Dentistry for over thirty years, has served as Chair of the Department of Dental Hygiene and has been an internationally recognized speaker on Advanced Periodontal Instrumentation. She is the co-author of the textbook, *Periodontal Instrumentation* and has contributed to several chapters in the last five editions of Carranza's (previously *Glickman's*) *Clinical Periodontology*. Ms. Pattison has been a featured speaker for the American Dental Association, American Academy of Periodontology, American Dental Hygienists' Association, Canadian Dental Hygienists' Association and 35 state associations as well as for various national associations and universities in Europe, Australia and Asia. She is currently the Co-Director with her husband, Dr. Gordon Pattison, of the Pattison Institute which offers lectures and hands-on instrumentation workshops throughout the U.S. and abroad. She is also the Editor-in-Chief of *Dimensions of Dental Hygiene*.

In 2005, she received the Pfizer-ADHA Excellence in Dental Hygiene Award and the USC School of Dentistry Alumnus of the Year Award. In 2006 she received the California Society of Periodontists Award.

## PART I: LECTURE

This program for dentists and dental hygienists provides detailed and up-to-date information on new instrumentation and techniques that will enhance your ability to recognize and treat patients with moderate to advanced periodontitis.

The format includes lecture, discussion, and DVD presentations on the following topics:

- Rationale for root debridement
- Use of the periodontal endoscope
- New videotapes of periodontal endoscopy
- The influence of endoscopy on periodontal instrumentation
- Videotape comparing hand and ultrasonic instrumentation
- Solutions to common clinical problems with instrumentation
- Use of Gracey 15/16, Gracey 17/18, Extra Rigid Graceys, After Fives™ and Mini Fives™, Gracey Curvettes, diamond-coated files, furcation curets, instruments for implants and other new periodontal instruments
- Evaluation of ultrasonic units and tip designs, use of thin tipped ultrasonics
- Adaptation of curets and ultrasonic tips to root morphology
- Specific techniques for furcations, line angles, and deep narrow pockets
- Indications and techniques for use of local delivery antibiotics

### Part II is a Limited Attendance Workshop.

Part II workshop teaches skills which build on concepts presented in the Part I (full-day) lecture course. Registrants for Part II must have attended Part I or another full day Advanced Periodontal Instrumentation lecture course by Anna Pattison within the past three years. Documented proof of attendance required.

## PART II: HANDS-ON

This limited attendance laboratory course for dentists and dental hygienists is designed to enhance your periodontal instrumentation, enabling you to treat patients with greater skill and confidence. This intensive hands-on experience includes continuous TV demonstration by Anna Pattison, plus a team of experienced instructors, providing attentive individualized instruction throughout the day.

The course features:

- Root planing exercises and root morphology review on extracted teeth
- Keys to effective instrumentation technique
- Sextant by sextant hands-on instrumentation experience on typodonts with accurate root anatomy and periodontal defects
- Use of Gracey 15/16, Gracey 17/18, Extra Rigid Graceys, After Fives™ and Mini Fives™, Gracey Curvettes, diamond-coated files and furcation curets
- Use of extraoral, reinforced, crossarch and opposite arch fulcrums
- Innovative approaches for access to difficult problem areas such as furcations, line angles and deep, narrow pockets
- Instrument sharpening

Participants are asked to bring safety glasses and gloves. It is advisable for attendees to not wear white clothing. Typodonts, poles, and complete instrument kits will be provided for use only during the course.
