A LECTURE COURSE

7 Hours of Continuing Education

Friday, March 18, 2005 • 9:00 a.m. - 5:00 p.m.

Ilan Rotstein, DDS

Associate Professor of Endodontics and Chair, Division of Surgical, Therapeutic and Bioengineering Sciences and Associate Dean for Continuing Oral Health Professional Education at the University of Southern California School of Dentistry. Dr. Rotstein has published over 100 scientific articles and research abstracts in the dental literature as well as chapters in international endodontic textbooks.

Topic: Endodontic diagnosis: chasing radiographic shadows

Samuel Oglesby, DDS

Associate Professor of Clinical Endodontics, Director of the Endodontic Clinics and Director of Postdoctoral Endodontics, Division of Surgical, Therapeutic and Bioengineering Sciences at the University of Southern California School of Dentistry.

Topic: Endodontic emergencies

Jack Brown, DDS, MSD

Associate Professor of Clinical Endodontics, Division of Surgical, Therapeutic and Bioengineering Sciences at the University of Southern California School of Dentistry, Los Angeles. Dr. Brown maintains a private practice in Beverly Hills, California.

Topic: Root canal preparation: concepts and technique

Fred Tsutsui, DMD

Associate Professor of Clinical Endodontics, Division of Surgical, Therapeutic and Bioengineering Sciences, USC School of Dentistry. Dr. Tsutsui is Diplomate of the American Board of Endodontics, Fellow of the American College of Dentists and Fellow of the International College of Dentists. He maintains a private practice limited to endodontics in Torrance, California.

Topic: Microscopic endodontics

Douglas Daws, DDS

Associate Professor of Clinical Endodontics, Division of Surgical, Therapeutic and Bioengineering Sciences at the University of Southern California School of Dentistry, Los Angeles. Dr. Daws maintain a private practice limited to Endodontics in Glendale, California.

Topic: Endodontic retreatment and surgery

David Jaramillo, DDS, EE

Assistant Professor of Clinical Endodontics at the USC School of Dentistry and Loma Linda University School of Dentistry. Dr. Jaramillo is former Professor of Dental Pain and Head of the Department of Endodontics at the Universidad Latina de Mexico. He is also former Associate Professor of Advanced Endodontics at the Universidad DeLaSalle, Bajio, Mexico.

Topic: Endodontic treatment of immature roots

SYNOPSIS

The art and science of endodontics are undergoing many exciting changes in the 21st century. Advances in biology, technology, procedures and materials make the contemporary practice of endodontics more predictable, efficient and with successful outcomes for patients.

This one-day lecture course includes updates on current topics in endodontics and provides you, the clinician, with knowledge and tools to better evaluate your endodontic cases and perform evidence-based endodontic treatment with more predictable results and greater patient acceptance.
