The New Odontic Seminar

*What's New, What Works in
Prosthetic Dentistry*

September 2005 - June 2006
Los Angeles (Fridays)
San Diego (Wednesdays)

USC New Odontic Seminar

What's New and What Works in Prosthetic Dentistry

A Monthly Program of Study in Prosthetic Dentistry:
September 2005 - June 2006

Los Angeles (Fridays) • San Diego (Wednesdays)

This 71st year of the Odontic Seminar brings us back to prosthodontics in the private practice of restorative dentistry. Again, the curricula are a little different between the San Diego and LA faculties. The 31st Periodontal Symposium is optional for the San Diego group. All Odontic Students must register for the symposium and are entitled to attend at the Faculty rate. Technology, dentistry, the human genome, and prosthodontics come together with a varied and complex program. It's time to return to review some basics and learn of new products and services. This will be an advanced and comprehensive series of meetings. Now, more than ever, the surgical and restorative teams that include the dental technician must understand each other's roles and expertise.

Genetics, bonding, saliva, dentin, immediate loading, no incision surgery, immediate dentures, gold foil, amalgam, hybrid resins, esthetics and the smile, now and the future. Screw retained vs. cement retained restorations; esthetic vs. anatomic concepts will be explored. "CAD/CAM guided surgery and prosthetics", "Teeth in a day", "Teeth in an Hour", "Bridge in a day", "Bridge in an hour" are the new buzz words in Prosthetic Dentistry.

This course is designed for the:

- General Dentist
- Prosthodontist
- Periodontist
- Endodontist
- Orthodontist
- Oral-Maxillofacial Surgeon
- Dental Hygienist/Assistant
- Dental Lab Technician

Lecture Schedule

September 14, 2005 (San Diego) • September 16, 2005 (Los Angeles)
San Diego: Hessam Nowzari, DDS, PhD, USC School of Dentistry
What is a Beautiful Smile
Los Angeles: Harold Slavkin, DDS, Dean, USC School of Dentistry
Tissue Engineering in The New Century - Biomimetics
Christopher Marchack, DDS, Pasadena, CA
Introduction to CAD/CAM Guided Surgery and Prosthetics
Hessam Nowzari, DDS, PhD, USC School of Dentistry
What is a Beautiful Smile

October 5, 2005 (San Diego) • October 7, 2005 (Los Angeles)
Rainer Bergman, DDS, Palm Desert, CA
Ergonomics, Computers, Digital Photography and Presentations
